

POWER PRODUCTS

Kawasaki

Kawasaki – engineered for Professionals

Innovative and dynamic quality products - this was the ultimate goal for the development of this range of tools and machines for professional craftspeople and exacting DIY enthusiasts. Whether you work with metal, timber or stone - ergonomic functionality and a full range of machines for all types of work were at the core of the design development. Drill, screw, weld, cut or sand. Dry or wet vacuum coarse or fine dirt in workshop or on site.

Power, Ergonomics and Design in Perfection

This tool and machine range was designed by our design and technology team for hands-on practical use and equipped with the latest in battery and motor technology. Many features, such as the double precision saw head guide, the belt drive to protect the motor, or the ergonomic handles of our compound mitre saws, were specifically developed by our engineers for this range of machines.

Kawasaki – active and attractive at the Point of Sale

Who says that power tools and machines always have to be grey, red or black? These tools and machines present themselves at the POS in a fresh, appealing and independent manner, in black and the unique Kawasaki-green. It all fits together. The product design, the product presentation together with meaningful information and the packaging.

Appealing to the eye and also good looking at work!

MITRE SAW

With their power, compactness and precision, these compound mitre saws are ideally suited for the craft trades, assembly jobs and exacting DIY work. The biaxial saw head guide, which extends forward over the workpiece, allows for long precision cuts, while the saw features compact dimensions, which provide for easy transportation. The saw blade bevel angle and table adjustment to the left and the right, laser cut guide and LED workplace lighting, ergonomic one-hand operation, extendable workpiece supports and the powerful workpiece clamping let professionals work professionally.

Equipment and technical features are model dependent.

Saw blade bevel angle
45° to the left and the right

Table rotation
45° to the left and the right

Fig. K-SMS 1800-305 DB-BD

Multi-function handle for one-hand operation
Ergonomic and safe saw head guide

Laser guide
Clearly visible and precise laser cutting mark

Double mounted saw head guide
For a precise saw blade run, also usable for high workpieces

Compact and easy to transport
Small, can be easily stored and transported. Perfect for assembly work.

Safety workpiece support
Adjustable workpiece supports and powerful jaw vice

Mitre Saw

K-MS 1300-210 DB-A

1300 W, Sawblade Ø 210 mm
 • Double bevel • Aluminium table • 2x Alu extension bar • Laser • Workpiece holder
 • Rubberized sawblade protector • Dust bag

Sliding Mitre Saw

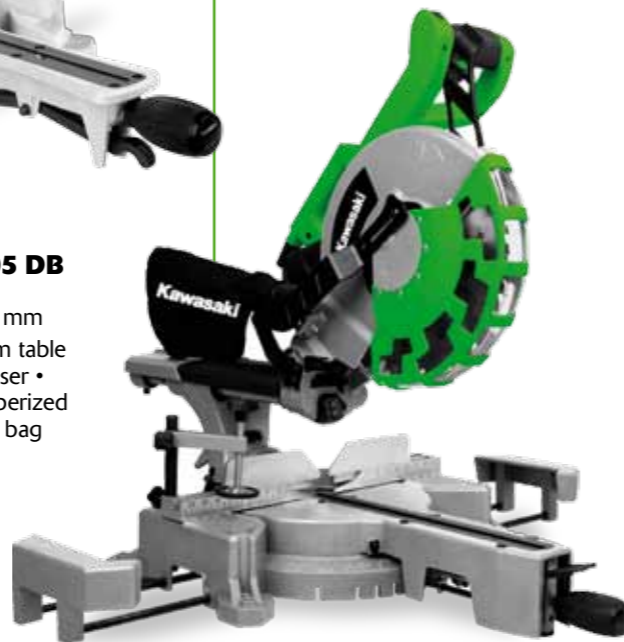

K-SMS 1300-210-305 DB

1300 W, Sawblade Ø 210 mm
 • Double bevel • Aluminium table • 2x Alu extension bar • Laser • 1x workpiece-clamp • Rubberized sawblade protection • Dust bag

Sliding Mitre Saw

K-SMS 2000-250-340 DB

1800 W, Sawblade Ø 250 mm
 • Double bevel • Aluminium table • 2x Alu extension bar • Multi function switch LED/Laser • Rubberized sawblade protection • Dust bag

Sliding Mitre Saw

K-SMS 2000-305-340 DB

1800 W, Sawblade Ø 305 mm
 • Double bevel • Aluminium table • 2x Alu extension bar • Multi function switch LED/Laser • Rubberized sawblade protection • Dust bag

Belt driven sliding Mitre Saw

K-SMS 1800-250 DB-BD

1800 W, Sawblade Ø 250 mm • Double bevel • Aluminium table • 2x Alu extension bar
 • Dust bag • LED working light
 • Belt driven • Transport handle

Belt driven sliding Mitre Saw

K-SMS 1800-305 DB-BD

1800 W, Sawblade Ø 305 mm
 • Double bevel • Aluminium table • 2x Alu extension bar • Dust bag • LED working light • Belt driven • Transport handle

Professionalism for professionals

The K-SMS 1800-250 DB-BD and K-SMS 1800-305 DB-BD are fitted with a precision belt drive with adjustable 360° multi-functional safety handle for one-hand operation. This ensures ergonomic and non-tiring work and motor protection even during the most robust operations. High workpiece stops, a strong workpiece vice and one-hand adjustment of the rotating table provide a professional work environment.

Cordless Drill

K-AK 3.6 Li Varia-Compact Screwdriver with Li-Ion-Technology

Particularly handy because of its rotating handle. Pistol grip for normal work. Cigar grip when working on hard to reach locations.

- Torque control • Foldable handle • Battery charging indicator function • LED light • Clockwise/counter clockwise rotation • BMC

Cordless Drill

K-AK 10.8 Li

Handy and powerful compact screwdriver with Li-Ion technology, quick-action chuck and torque control

- Electric break • Forward & reverse • Lithium-Ion battery protection • Soft grip overmold with TPR • LED working light function • LCD indicator • BMC

Small but powerful

The cordless drill K-AK 3.6 with Li-Ion technology and rotating handle is perfectly suited for those tricky hobby and leisure jobs.

Because of the Li-Ion technology, the torque control and the integrated charger unit with LED charge control, this drill will quickly become your indispensable helper.

POWER TOOLS

Battery operated drills drill/impact wrenches

Compact, powerful and handier than any other tool, because you can work without the need for a mains power source. Because of the latest Li-Ion battery technology, you are able to work significantly longer and with more power. This handy all-round tool with ergonomic power handle, quick-action chuck, robust 2-speed drive and torque control can in many cases replace heavier drills that have cables.

Cordless Drill

K-AK 14.4 Li K-AK 18 Li

Li-Ion technology, quick-action chuck and torque control

Cordless Drill

K-AK 14.4 NiCd K-AK 18 NiCd

NiCd technology, quick-action chuck and torque control

Lithium-Ion technology - source for long lasting power

Our compact power packs with lithium-ion technology (Li-Ion) were specifically developed for professional drilling and screwing tasks that can also be significantly more demanding at times. The advantages of lithium-ion technology if compared to conventional NiCd batteries are significant.

Low self-discharge. Once the battery is fully charged, the screwdriver can still be used a few months later.

No memory effect. This means the battery can be charged at any time. Irrespective of the state of charge, without causing damage to the cells.

Always full performance. From the start right through to the end of the battery charge.

Lower weight. Because of the increased energy density, these high-tech batteries weigh up to 40% less than common NiCd batteries of the same size.

POWER TOOLS

Drilling, screwing, sawing, cutting, planing and sanding. Here you find all power tools that you need for these most frequent jobs of the craft trades. Perfect brand quality, compact, functional, with superb design. Every machine was specifically designed for its particular jobs and fitted with the latest in motor technology. Functional softgrip applications provide for a safe grip and comfortable handling. They convince by top-performance - also during extended use.

CLEANING

Wet/dry cleaning of fine and coarse dirt with vacuum and blower function optional with synchro-function.

With these functions you are ready for all cleaning challenges throughout house, garage, garden or workshop.

You can even vacuum concrete and brick dust on the work site and leave no dirt behind. And if you spill something - no problem. You can easily clean water, suds, overflowing foam together with dirt or glass splinters from the floor. Powerful, silent motors and the air flow optimized jet technology allow you to work comfortably and efficiently.

With their synchro-function, the E-models are perfectly suited for the extraction of dust from external tools and machines, such as circular saws, compound mitre saws, milling machines, mechanical saws and everything else that produces dust and chips.

The electronic continued operation ensures that the suction hose is always emptied.

**Wet / dry Vacuum Cleaner
K-VCW 1400-30L**

1400 W,
30 L stainless steel tank, cartridge filter, telescopic tube

**Wet / dry Vacuum Cleaner
